Later from Europe.

The *Arabia*, with three days later dates from Europe, arrived yesterday. The news is not important. Peace once more reigns on the Continent, while war has broken out in far off Asia. Money is easier and breadstuffs quiet. We have some further tidings of the lost steamer *Lyonnais*. Congress was occupied yesterday in paying funeral honors to the late PRESTON S. BROOKS.

La Crosse and Milwaukee Rail Road.

We publish, this morning, the report of the President and Directors of the La Crosse and Milwaukee Railroad Company, to the Governor and Legislature of our State. It gives an interesting and satisfactory account of the proceedings of the Company thus far, in the management of the North-Western Land Grant and the preparations for a vigorous prosecution of the great enterprize entrusted to their care.

Harbor Appropriations.

The letter of our Washington correspondent gives the amounts to be reported for our several Wisconsin ports. That for Milwaukee is $80,000. We earnestly hope that the bill may become a law.

"RETRENCHMENT AND REFORM."—The season for paying taxes always and naturally revives popular interest in the subject of "Retrenchment and Reform." The burden of taxation has become a heavy one, throughout our State, and there is great complaint thereat. It cannot be doubted that many expenditures might be retrenched and many superfluous offices abolished in our State, County and City Governments, and the public service not suffer by the reform. A correspondent in to-day's paper broaches the topic and invites discussion and action. We hope that others will speak upon this hint, and arouse public and Legislative attention to the imperious necessity of "Retrenchment and Reform."

The News and the Senatorship.

The *News* refuses to be comforted, in respect to the election of Judge DOOLITTLE to the U. S. Senate, and continues to demonstrate, to its own entire satisfaction, that he is ineligible to this high station. Our neighbor admits, however, and thus accounts for, its apparent change of front on this question:

THE ELIGIBILITY OF JUDGE DOOLITTLE.

Under this head, the sham Republican *Sentinel* of this city, publishes an article which appeared in the *News* some time since, which involves us in an apparent contradiction. That article, however, was written by our associate, at a time when we took very little interest in the question, not dreaming that the action of the sham republicans would ever make it one of practical importance, and therefore did not read the article; nor were we aware of the position taken by our associate, until our attention was called to it in the *Sentinel* yesterday morning. Our own views have ever been the same, and remain unchanged.

Our friend, Col. C——, tells a story of an Englishman and a Yankee, discussing the various actions of the Revolutionary War, and each claiming the palm of victory for his own people. Finally, the Englishman, by way of a clincher, remarked to the Yankee, "Well, how about the battle of Long Island; who won there?" "Oh! *we took no interest* in that fight," was the Yankee's prompt reply. So our neighbor of the *News*, beaten out of its last position by the weapons which itself furnished only two weeks since, now informs us that it "took *very little interest* in the question" at that time and devolved upon its sub the duty of writing it up.

The views of the "other Editor" of the *News*, however, are unchanged; and these are, briefly, that "the State determines for itself, in what manner the Legislature shall elect" a U. S. Senator (which nobody denies) and that the mode prescribed by law, in this States, is as follows:

"Such election shall be made by the Senate and Assembly in joint convention, held in the hall of the Assembly; each member shall vote viva voce upon a call of the roll, and the votes for Senator shall be entered upon the journal of the convention, and the majority of the votes given shall be necessary to a choice.—*R. S. sec. 9, chapt. 7.*"

Precisely. Judge DOOLITTLE was elected in *exact conformity* to this provision of law.

The Senate and Assembly met "in joint convention;" each member voted "*viva voce*" for Senator; these votes were duly "entered upon the journal of the convention," and "a majority of the votes given" were for JAMES R. DOOLITTLE. Upon what pretence, then, is he denied a "certificate" of the fact? Who undertakes to bar out from the Senate of the United States the man whom the PEOPLE OF WISCONSIN, represented in Senate and Assembly, have commissioned to go there? Why, the Lieutenant-Governor, who, as presiding officer, simply of the "Joint Convention," assumes to overrule its voice and *veto* its action! Now what duty in the premises? The Revised Statutes thus points it out:

"The President of the Senate, and Speaker of the House *shall cause a statement* of the result of such election to be made under their hands, certifying who has been chosen such Senator, which certified statement shall be delivered to the Secretary of State and recorded by him. R. S. Chap. 7, Sec. 10.

This section is explicit. It imposes a ministerial duty merely upon the Lieut. Governor, as upon the Speaker. They are simply required to certify to the result i. e. to certify who received "a majority of the votes given" in Joint Convention. But neither Speaker, nor Lt. Governor has the slightest power to reject these votes, or rule out the candidate for whom they were cast. As well might the Secretary of State also plead "constitutional scruples," as an excuse for non-compliance with the section which specifies *his* duty in the premises and which reads thus:

"The Secretary of State shall immediately thereafter make out a certificate under the seal of this State and attested by him as Secretary, certifying such choice, and deliver the same to the person so chosen Senator." R. S. Chap. 7, Sec. 11.

With the same propriety may the Secretary of State refuse this certificate to the Senator so chosen, as the Lt. Governor withhold his signature from the statement of the result in Joint Convention. The act of each officer is simply a ministerial one, enjoined by the statutes of the State, and the refusal to perform the act is a breach of official duty, a contempt of the Legislature and an outrage upon the People. Easily as we think the Lt. Governor can be managed and led by the more reckless leaders of the Sham Democracy, we are not prepared to believe that in the vain hope of obtaining some partizan advantage, he will prove recreant to his duty and disobedient to the law. But if, forgetful of his obligations to the Constitution, the Laws and the People of this State, the Lt. Governor shall contumaciously persist in his refusal to sign the certified statement of the election of Judge DOOLITTLE, we presume that the Legislature will empower the Clerk of the Senate to perform the act which its presiding officer weakly and wrongfully evades.

FROM MADISON.

Editorial Correspondence of the Sentinel.

MADISON, Jan. 27, '57.

The train from Milwaukee, with the milder weather to-day, reached here by about 4 P. M. bringing back sundry members who had been absent. I heard of a saying by one member (who has *not* returned) who, I think, hit the nail on the head by excusing himself for staying away, by the plea that the State would make money by paying the Legislators their *per diem* and having them stay at home altogether. The remark, however, is probably of too sweeping a character, but it has truth at the foundation thereof, for, with less tinkering of the Statutes, the State would be better off. However, there are, in a new and rapidly growing State like ours, many matters of general importance which require Legislative action. Could we be finally rid of the enormous mass of special business which crowds its way in here at every session, the stay of the Legislature here would be much shortened.

The Senate *Journal* of yesterday, and the *State Journal* of to-day, contain the first Report of the La Crosse & Milwaukee R. R. Co. to the Legislature of their doings under the provisions of the act giving them the Land Grant. It shows that the Company has acted with promptness and energy, and is so pushing on the work as to vindicate the wisdom of the Legislature in giving the grant to an existing Company, with established credit, rather than to a new Company, with credit still to be made.

Preliminary action has been taken here in regard to two subjects of importance—the salaries of Judges, and the Assessment Law. The salaries of the Judges are certainly too low. The idea of securing the best legal talent for the Circuit Judgeship at $1,500 per year, and of Supreme Court Judges at $2000 a year in these times, when the cost of living is increasing so rapidly, is preposterous, and, I think, that bills will be perfected and passed, raising the respective salaries to a decent figure.

And, while talking of salaries, is there no way—I believe there is none, short of amending the Constitution—to give the Governor of Wisconsin a better compensation than $1250?—a sum which will not pay the expenses of an Executive who has a family. It must have been a very "picayune" sort of spirit which placed that restriction in the Constitution, and yet allowed all the other officer's salaries to be increased by extras, fees, &c., *ad libitum*.

The subject of the Assessment Law has gone to Committee, and I wish them a safe deliverance of some project, which shall be just and equal, and satisfactory. The Illinois law is said to be a very good one, and to give general satisfaction to all who *can* be satisfied. It is reasonable to suppose that the very large number of gentlemen who have thus far acted as Assessors throughout the State have stretched their consciences as much as they care to, and that they will rejoice to see some other system adopted. As it is, there is not a city, town, village, or county in the State, that is assessed at much over one fifth of its real value, calling its value the price which the owner could get if he wished to sell. Such a picture of low values as Wisconsin presents, in comparison with other States which have a better law, ought to be destroyed *instanter*, and a new one prepared which should give our eastern cousins a better idea of what a State we are building up out here.

I have learned to-day the secret of the Assembly's having no chaplains. During the short debate at the opening of the session, on the subject of employing chaplains, an amendment was offered to the resolution, (which invited the resident clergy to officiate,) "providing that they should not receive more than $25 each." This amendment failed, but Speaker Spooner thought it had passed, and sent the clergymen the resolution as he supposed it had passed. On the coming in of the reply of the clergy, declining to officiate, two of them stating that they would have done so if the invitation had been in the usual form, the Speaker looked over the matter again, and found that the *proviso* did not pass, and he immediately sent the clergymen a correct copy of the resolution. So the matter stands, but the Assembly is still "without the benefit of clergy."

W. H. W.

A Timely Reminiscence.

The *News*, which claims for the Lt. Governor the right to *veto* the election of a Senator by the Senate and Assembly in Joint Convention, thus seeks to excuse Mr. MCARTHUR's refusal to sign Judge DOOLITTLE's certificate:

"It is not like the act of signing a bill at all. That he can only sign when the proper forms are gone through, and then can only sign as "passed by the house." Here he is required to certify that a man was elected, who was not—to certify to a falsehood. It wants a "nose of wax" to do that, not a man."

A "nose of wax" was found in the person of the Lt. Governor, last fall, to "certify" to a bill, which did *not* go through "the proper forms," nor was "passed by the house." We refer to the bill paying Gov. BASHFORD's counsel for their services in the contested election case. This bill was amended in the Assembly, late Saturday night, by including an appropriation for Barstow's counsel. Thus amended it came back to the Senate early Monday morning, just as that body were about to adjourn finally. There was no quorum present, and Senator SHOLES vainly endeavored to get a call of the House and the yeas and nays. It was of no use. The Lieut. Governor—this great stickler for "forms," this scrupulous guardian of the Constitution—was deaf to all such demands; declared the amendment carried the bill passed, and the Senate adjourned *sine die*, all in the same breath, and then "certified" to the act thus illegally and improperly rushed through the Senate! Happily the Governor's *veto* promptly cured this gross wrong. But where were the Lieut. Governor's "constitutional scruples" then?

OUR SENATOR ELECT.—The Washington County *Democrat* thus speaks of our new United States Senator:

The Republican party in this State does not contain a man better qualified for the high station of U. S. Senator, nor one who can fill that position with more grace and dignity, than James R. Doolittle. He came to this State, we think, in '48 or '49, and commenced practising law in Racine. His ascent of the hill of fame has been rapid and certain. He is an eloquent speaker, and one of the most powerful pleaders, we think, we ever heard.

The Chicago *Democrat*, referring to the pretence set up by the Sham Democracy, as a justification of Lt. Gov. MCARTHUR's high-handed and unwarrantable assumption of authority, says:

Judge Doolittle was elected under precisely the same circumstances that Judge Trumbull was. He had been a Judge of the Supreme Court, but had resigned over a year ago; and Wisconsin has a similar constitutional prohibition to that of Illinois. But as the U. S. Senate has declared in Trumbull's case, that it was no bar to his holding his seat, the Legislature of Wisconsin has acted upon the decision.

AN EARLY ADJOURNMENT.—The following is the joint resolution, adopted by the Senate and Assembly, to close the session on the 23d of February.

Resolved by the Senate, the Assembly concurring, That the Legislature will adjourn *sine die*, on Monday, the 23d day of February next, at 12 o'clock, M., and that no new business will be received or acted on by either house after the 16th February.

All persons, having any business which they desire to bring before the Legislature, will do well to keep in mind the last clause of the above resolution.

WAR ON ILLINOIS MONEY.—The St. Louis and Cincinnati brokers have declared war against the Illinois money and are discrediting the Illinois Banks. As they probably make a handsome shave by the operation, the movement is not to be wondered at. The Chicago papers insist that the issues of the Illinois Banks are, in the main amply secured.

FROM OUR WASHINGTON CORRESPONDENT.

WASHINGTON, Jan. 23, 1857.

The Senate, as was predicted in my last communication, have ousted Mr. Harlan, and the decision, technically right as it may be, will stand to trouble its advocates, who may yet realize the fate of "the engineer hoisted by his own petard." So far as Mr. Harlan is concerned, it puts a handsome mileage in his pocket, to compensate him for the temporary absence from the seat to which—as is already ascertained by telegraphic despatches from Iowa,—he is sure to be re-chosen. In the case of other Senatorial elections now pending, however, the decision will be regarded as a precedent, which will probably interfere with the success of such aspirants, for instance as Mr. Bright, of Indiana, who has left his seat as presiding officer of the Senate to manoeuvre his re-election at home, carrying with him potential arguments in his pockets, as well as equally powerful promises for future prosperity and patronage.

The defeat of Forney and the success of Gen. Cameron in Pennsylvania, has filled the friends of the incoming administration with rage and mortification. The successful candidate is probably Mr. Buchanan's most bitter personal enemy; and that such a result should have been possible, in view of the recent vote for the Presidency, is looked upon as an evil omen for the harmony and prosperity of the new regime.—Mr. Cameron was here for a day or two, and was the observed of all observers.

The new Pension Bill is practically killed by the amendments tacked on to it, especially by the vote of postponement till next December. This seems to be a most unfortunate decision, and was due very much, it is no secret here to say, to the fact that over two-thirds of the money to be drawn from the Treasury under the bill would go to the North. A strong Southern influence was therefore concentrated against it, and with the help of such *Northern* representatives as Toucey of Conn., Allen of R. I., &c., the movement proved successful; and another long delay—which it is made matter of calculation must diminish the number of those who would be benefitted by the Bill—occurs to make still more sick the weary hearts long since saddened by the hope too oft deferred.

The House of Representatives has made a beginning, but not much of a one, in the way of business, Mr. L. D. Campbell having succeeded, at the risk of a fight with Rust of Arkansas, in carrying the previous question upon the Presidential message debate, and in the calling up his bill for the amendment of the present tariff. Speeches, based ostensibly upon this bill, but in fact devoted wholly to the everlasting slavery question have, with private claims, consumed the week, and it was while engaged in discussing one of the latter, that Mr. Giddings to-day was seized with another attack similar to, but much more severe than, the one of last session. The House adjourned at once, and for awhile the life of the old veteran was almost despaired of.—Prompt and unremitting attention on the part of many friends—and the expression of sympathy was general—restored respiration and pulsation, both of which had ceased, and the chances now are that after two or three days repose, the hero of a thousand well fought political debates, will be able to resume his seat, though hardly to engage in animated discussion.

For the next week, territorial business will monopolize the attention of the House, but the week after the Committees will be called, and then, when that on commerce is reached, the River and Harbor bill will be taken up and passed in an Omnibus bill, which may, perhaps—tho' I have no strong hopes—be carried over the veto, which, of course, it is sure to receive. For the five Wisconsin ports, the following sums have been inserted, the amounts being those mentioned in Col. Graham's late report, as necessary:

Racine	$43,392,45
Kenosha	58,047,24
Milwaukee	80,805,99
Manitowoc	62,750,92
Sheboygan	36,614,55

In addition to this, Mr. Billinghurst has made an effort, which will probably succeed, to secure an appropriation of $20,000 for Ozaukee, or Port Washington, based upon a recommendation of the Department some years ago.

For Chicago the appropriation will amount to $137,000, which, it is estimated, will complete the improvement of that important harbor, and for Waukegan, about the same sum is needed and will be given. A seperate bill will be passed for the improvement, under the contract system, of the Mississippi, Missouri, Arkansas and Ohio Rivers, which, involving as it does some new features and requiring an appropriation of some two millions, it was not thought expedient or proper to unite with the other regular River and Harbor bills. With this exception, and that of the Louisville and Portland Canal, to enlarge which half a million will be required, all the internal improvement bills must stand or fall together, and the gentlemen who have constitutional scruples about voting money for such purposes, except where their own immediate interests are concerned, must now consent to self-sacrifice or unite with the friends of the whole system. This is as it should be.

The Committee of Investigation upon the alleged corruption practised in the House, are busily at work, and if I am rightly informed, have got upon the right track, partially at least. Of this, perhaps, more hereafter.

High Taxes—Superfluous Offices.

MESSRS EDITORS:—The general complaint of high taxes has induced me to enquire into the cause or causes, and I have found that several of them may be removed, or modified, by a more perfect organization of our county and town matters.

The four offices of Register, Clerk of Supervisors, Clerk of Court, and Treasurer, are considered very lucrative, or those who hold them wouldn't so soon become monied and *opulent*, from a state of *indigence*. The present organization is very inconvenient, and troublesome as well as expensive in respect to searching out incumbrances on land titles. I have not conversed with any person who does not want the present organization changed, without saying a word of the extravagant *fees* allowed to the Clerks of County Courts, and Clerks of Supervisors.

I have only glanced at the subject, with a design to excite tax-payers to enquire into the whole matter, and make themselves acquainted with the various sums allowed them, by Supervisors, as well as fees of office.

The town organization needs a thorough remodelling as well as county. This too only needs a *glance* to see the impropriety of one or two offices. At present we have nominally three Supervisors, and really but one, whose duty is the general supervision of town business, commissioner of highways, overseer of the poor, and representative in the county sessions. Another is the office of Collector and Treasurer in one person.

An inquiry into the matters just hinted at, I think, will convince any impartial mind, that there may be *retrenchments* made, and public convenience imporved, by a more perfect organization of both counties and towns. Submitted with respect.

Pioneer Association.

The annual meeting of the Pioneer's Association, of Wisconsin, will be held at Madison on the second Wednesday, the 11th of February next—which the old pioneers of the State who settled here on or before July 4th, 1836, are cordially invited to attend. Let there be a general and hearty re-union. An annual address may be expected.

By order of the Executive Committee.

La Crosse and Milwaukee Rail Road.

THE NORTH WESTERN LAND GRANT.

The La Crosse and Milwaukee Railroad Company have the honor to submit to the Governor and the Legislature of the State of Wisconsin, the following

REPORT:

At the extra session of the Legislature, held in September last, an act was passed transferring to this company such of the public lands, granted by Congress to the State of Wisconsin, to aid in the construction of Railroads, as were applicable to the construction of a North-Western line of road, and authorizing this company to construct such road, to which act the company immediately assented and formally accepted the grant and assumed the duties and obligations imposed upon it; and although the act does not require the company to make any report of its operations to any department of the Government, yet, inasmuch as the people of the State are deeply interested in the faithful application of the lands thus granted to the object intended by Congress, and especially in the early completion of the road in aid of the construction of which this grant was made, the company deem it proper that the Legislature—and through that honorable body—the people of the State should be fully advised of what the company has done, and is doing, in performance of the duties and in the execution of the trusts devolved upon it.

Immediately after the passage of the act transferring to this company the north-western land grant, and authorizing it to construct the road, the company at once entered upon the business of carrying out the law and fulfilling the duties and obligations imposed upon the company, and executing the trusts created by it.

The act referred to, makes Madison the Eastern terminus of the land grant road, but it also requires the construction of a Railroad from Columbus to Portage City, simultaneously with the construction of that from Madison to the same place.

In the month of October last, several corps of Engineers were organized, who at once entered upon the survey of the several lines of road required to be constructed.

The survey of the lines from Madison to Portage, and from Columbus to Portage, was placed under the charge of the Hon. S. W. Barnes, and though not completed have been executed in a very satisfactory manner as far as they have progressed. Those entire lines have been placed under contract to the most reliable and responsible parties, and the construction of them will be prosecuted in the most vigorous manner and without loss of time.

The company directed the survey of two lines between Portage City and the St. Croix, with a view of selecting the most feasible, practicable route between those points, consistent with a due regard to the business interests of that portion of the State, intended to be benefitted by the construction of the road; one of these lines passes through the vallies of the Lemonweir river and by the way of Black River Falls and Eau Claire to the St. Croix.

The other line starting at Portage City pursues a more Northerly route, running by the way of Grand Rapids on the Wisconsin river, crossing the upper branches of the Yellow and Black rivers, to Eau Claire, when it intersects, and from thence pursues the same route as the line first described.

A third line will be explored, commencing at Black River Falls and thence to the St. Croix at or near its mouth, and up the valley of that river to a point of intersection with the other line.

Sufficient time has not yet elapsed since this company became charged with the duty of constructing this road, to complete the surveys of the several lines above mentioned, but as strong an engineer force as it was prudent to employ has been kept constantly in the field engaged upon the surveys; and they are progressing with a vigor and rapidity which will ensure their completion without any unnecessary delay, and so that such portions of the road as can be worked upon to advantage may be located, and the work of construction commenced at an early day.

For the purpose of obtaining the means requisite to enable the company to proceed with the construction of the road, it has in pursuance of the authority conferred upon it by law, executed with the usual and proper formalities to trustees, a deed of trust, or mortgage, upon that portion of the line of road, which they are authorized to construct, extending from Madison to the St. Croix, and the right and interest of the company in and to the lands embraced in the grant, which may be applied to the construction of that portion of the road, and upon the western division of the La Crosse and Milwaukee Railroad, extending from Portage City to La Crosse, and also upon all the franchises of the company, appertaining to both these lines of road. This mortgage is made to secure the payment of the bonds of the company, to the amount of ten millions of of dollars, which have been issued in conformity to law, and in connection with the mortgage above mentioned.—Of the bonds so issued and secured, two millions of dollars of them are issued on account of, and are chargeable to the La Crosse and Milwaukee Railroad proper; and the remaining eight millions of dollars of such bonds are issued on account of and chargeable to the division of the Land Grant road, lying between Madison and the St. Croix.

The company have effected a sale of seven hundred and fifty thousand dollars of the bonds thus issued, with which they have purchased a quantity of iron rail, sufficient to lay more than 100 miles of track. This iron has been purchased at a favorable price, and paid for exclusively in the bonds of the company, issued and secured as above stated, and is ready to be forwarded on the opening of navigation, and will be delivered at Milwaukee during the next summer.

The company have also made arrangements for the sale of one and three-quarter millions of dollars of these bonds, in addition to the above to be paid for in cash, a part of the consideration for which, has already been paid, and the balance is payable in installments from time to time, running through the next summer, the last of which is payable by the first day of September next. By this arrangement, the company is enabled to realize the entire proceeds of two and a half millions of dollars of bonds so sold, in ample time to apply them to the construction of the road within the next season.

The Directors of the Company deem themselves peculiarly fortunate in this early consummation of the negotiations above mentioned, not only because they have thereby an early commencement of work on the road, and to proceed with its construction vigorously and effectively; but also, because the fact that these sales have been made will produce additional benefit to the company of great value and of the utmost importance. The purchasers of these bonds are in most instances heavy capitalists, and they have thereby become interested each to the extent of his purchase in the faithful and prudent management of the affairs of the company, in its financial operations, and in the ultimate complete success of the enterprise in which it is engaged; and the value of their interest and influence in sustaining the credit of the company, in giving value to its securities, and in aiding the company to secure and maintain in financial circles, the position to which it is fairly entitled, can scarcely be over-estimated, and are of the highest importance to the company and to the State.

Other negotiations are pending for the sale of bonds and for the purchase of materials, locomotives and cars to be used in the construction and equipment of the road, which are so far advanced that the company now entertains no doubt of being able to dispose of its securities, and obtaining upon fair and satisfactory terms all the means and materials it will need, as rapidly as they will be required or can be prudently used and expended in the construction of the road.

Since the adjournment of the last Legislature, the company has also pressed forward the work on its road east of Portage City, with renewed energy. The eastern division of the La Crosse Road is now nearly completed to Portage City, and will soon be in operation to that point.—Upon the Watertown division the grading is finished and the track laid nearly to Columbus.—This division it is expected will be completed to Columbus so as to admit of running regular trains over it as soon as the weather will permit of laying down the track.

The surveys of the western division of the La Crosse and Milwaukee Railroad, extending from Portage City to La Crosse are in a state of sufficient forwardness to justify putting that line under contract, which has been done on favorable terms to a contractor of the most responsible and reliable character. This division of the road as well as those from Madison and Columbus to Portage is to be completed by the last day of October, 1858, or in one year from next October.

We have great satisfaction in being able to lay before you so favorable a state of progress from which it will readily be inferred that the company has not been idle, nor unmindful of the important duties devolving upon it. Since the passage of the act referred to, only some three months have elapsed, and yet with the established credit of one company acquired by years of intense labor and the faithful performance of every obligation, we have been able to accomplish more than could be effected by a newly organized company, in almost as many years.

We look to your Honorable Body to second and sustain our efforts; and with such aid and support, we feel the certain conviction that we can accomplish the completion of these several lines of railroad in as short a time and as complete a manner, as it could be effected through any other agency whatever.

In our successful and rapid progress, the people of the State are deeply interested, and we therefore ask for and confidently expect their cordial co-operation as well as that of their representatives, and the several officers of the State Government, through whom we must communicate with the General Government, and on whom we shall greatly rely in the various transactions required in the selection of lands and perfection of titles, in which the interest of the bond-holders will be deeply concerned.

Good faith toward those who have invested their capital in our State to promote its improvement, will doubtless actuate every official department to do all that lies within the sphere of its duty to render the securities held by them as safe and reliable as possible; and thereby secure to our State not only the early completion of the enterprise now in hand, but also a position of credit equal to any future demand for the development of its inexhaustible resources.

In conclusion, we invoke the cordial and friendly aid and support of the Legislature and State authorities, and

Remain very respectfully,
Your ob't servants,

REAL ESTATE AT PRAIRIE DU CHIEN.—The Prairie du Chien *Patriot* of the 24th instant says:

We are informed that large transactions in Real Estate, in Lower Town, took place last week. Property to the amount of some $10,000 to $12,000 changed hands. Thus early in the season are eastern capitalists directing their attention and their footsteps to this place, the future emporium of Wisconsin. Almost every mail brings us letters from the eastern states, as New York, Vermont, New Hampshire and Connecticut, containing interrogatories as to the climate, soil, population, business facilities, etc., of the Prairie and surrounding country; to such queries we have returned straight-forward and and truthful answers; we have not let the bright future lead us into exaggeration, although the *glittering* prospect ahead might well do so.

HOW NEW YORK TAXES GROW.—The *Tribune* publishes the following comparative table of the aggregate tax levied upon real and personal property in the city of New York for each of the past seven and the present year:

1851	2,924,385
1852	3,373,335
1853	5,069,650
1854	4,341,256
1855	5,343,823
1856	7,075,426
1857	7,813,855

ATTEMPTED ASSASSINATION.—It has just transpired that Mr. Corbin, an employee of the Chicago and Milwaukee Railroad Company, was shot on last Sunday morning about 2 o'clock. Mr. Corbin had been detained in the office at the depot until a late hour in order to get his books posted, and just after leaving the building received a pistol ball in his side, which passed through his clothing, but fortunately inflicted only a slight wound. No trace of the would-be assassin has been discovered, and Mr. Corbin is unconscious of having an enemy who would take his life.—*Chicago Tribune, 29th.*

ACCIDENT.—We learn that a man by the name of Thomas Fayhay, while engaged in chopping, about four miles north of this city, yesterday, had both bones of one of his legs badly fractured by the falling of a tree.—*Racine Journal, 23th.*

Liver Complaint and Dyspepsia.

PHILADELPHIA, Jan. 18, 1855.

Dr. C. M. Jackson—Dear Sir—I have used your Hoofland German Bitters in my family for the past four years, for Liver diseases and Dyspepsia, and am pleased to acknowledge that we have received the greatest benefit from its use. I have recommended it to a great many afflicted with similar diseases; with the same good result. I have no hesitation in saying that it was an invaluable medicine, and hope you will be able to introduce it into every family in the Union. Yours, Truly,

Mrs. Kemble's Last Night.

MRS. FANNY KEMBLE concludes her course of Readings in Milwaukee *this* (Friday) evening, with the play of "*Antony and Cleopatra.*" We have only space to call attention to the fact and more is unnecessary. Young's Hall will be crowded, of course. The reading commences at 8 o'clock precisely.

FUNERAL OF THE LATE CAPT. RUSSELL.—The remains of the late Capt. FRANCIS L. K. RUSSELL, formerly of the U. S. Army, were accompanied to the grave, yesterday afternoon, by the Masons and the Milwaukee Light Guard, acting as escort, and a large number of relatives and friends. The body was interred in the Forest Home Cemetery. The Episcopal burial service was read at the grave by the Rev. Mr. INGRAHAM. This was followed by the customary Masonic ceremonies. Last of all the Light Guard paid the soldier's parting tribute to the memory of a deceased comrade, by firing three volleys over the grave. The deep snow, the gloomy skies, the chill air, the mournful procession and the wailing notes of the dirge, all combined to render the scene solemn and impressive.

DESIRABLE FARM FOR SALE.—In our advertising columns it will be found that the beautiful farm of Hon. D. WORTHINGTON, in the town of Summit, Waukesha County, is offered for sale. Having, a year or two since, spent two or three pleasant summer days with the estimable proprietor, we can from personal knowledge speak of the situation and character of the farm and buildings. The farm is indeed, among the many valuable and beautiful farms in the lake country of Waukesha County, one of the most valuable and beautiful, and has its own charming lake of clear water, bordered with woodland.—The house is a neat, admirably arranged cottage building, nearly new, and the fine taste of the owner is everywhere visible about it. The society of the neighborhood is of the best in the State, and the man who is fortunate enough to become the possessor of the place will find himself greeted by a circle of friends, among whom our friend Worthington has ever been a favorite, and his old homestead must always have an attraction for them.

A GOOD CHANCE.—Now is the time for anybody who wants to rig himself out in a fashionable style, for little or nothing! Messrs. W. W. Sherman & Co., No. 107 East Water street, are selling off their large stock of Gent's Clothing in order to go into the wholesale business. They have always sold cheap, but now they will sell at first cost until the 15th of February. Messrs Sherman & Co. assure us that there is do humbug about this, for they are determined to *sell out*. See their advertisement, and for further particulars, go and see their goods at 107 East Water street.

DRUGS AND PAINTS.—These are articles which every country merchant deals in, more or less. In our advertising columns of this morning will be found the card of Messrs. Rice & Stevenson, Wholesale Druggists No. 83 East Water street. They are doing a very large business, which enables them to sell goods at very low figures. Messrs. Rice & Stevenson are reliable business men, and when they say they will sell goods cheap they will certainly do so.

VESSEL SALE.—The schooner *Juniata Patton* of this port has been sold by Dayke & Hoffman for $4,500. She is now lying in the river.

THE MISSION OF A NEWSPAPER.—*Scene—Editorial room of a reliable Journal. Principal editor grinding out a leader. Commercial editor and proof reader correcting and reading aloud a mass of statistics. Local editor busy writing advertisement of a new patent powder-horn warranted "not to cut in the eye," or the money refunded. Enter—a gas man*, with nine or ten sets of pincers, and forty-eight different kinds of gas burners. The gas man interrupts everybody to tell what he wants. It is a great invention—a valuable invention—an invention that will save gas and put money in the pockets of the people. Goes on to test the forty-eight burners, one after another. Editor-in-chief swears. Commercial editor raises his voice as he calls off his figures, to a yell, and local editor examines burners with a mixed delight of economy and wonder. After stopping all editorial operations for an hour, gas man obtains the insertion of an article which costs a dollar or two to put into type, the time of the editors, and the use of the newspaper for nothing, and goes off to victimise some other editor. One of the editors, before the gas man retires, timidly asks what good the insertion of the article is going to do the proprietors of the paper, when he is informed that newspaper owners are expected to work for the people, and that the greater the benefit to some one else, the more they should be willing to suffer and pay. Editor satisfied with this view of the case, and bows the gas man out.

Here comes another individual, and the following conversation takes place:

Stranger—"I called in to get you to make a notice of a very valuable improvement I have been making in adjusting a check-strap to the back of harnesses, to prevent horses from running away. You see how simple a thing it is, and so easily managed that a child can drive the most spirited horse without any danger of being run away with. I think it will be the means of saving many valuable lives, and if you will only give me a favorable notice in your valuable columns, I can make money out of it."

Editor—"Well, my friend, our time is valuable, and no doubt you think you have what you consider a public benefit, still we cannot devote our services and space without an equivalent; we must be paid for it."

Stranger—"Well, that's a strange idea. I thought newspapers were got up for the public benefit, and that it was the duty of editors to notice all the valuable inventions and improvements, else how will the world be benefited by genius and science? Now I think you are in duty bound to give your readers the benefit of all the improvements that are going on. It is of more importance than one-half of all the political stuff you put in your paper."

Stranger goes off in a huff, and editor returns to his train of ideas, which, in most cases, in consequence of misplaced raillery, has run off the track. And this occurs twenty times a week, under the mistaken idea that paper, brains, and time, are valueless.—*Buffalo Republic.*

GENTLEMEN desirous of acquiring a thorough Mercantile Education, are assured that the advantages presented at this institution are unsurpassed.

The Principal takes this opportunity to acknowledge the courtesy of several of the most distinguished Shipping and Jobbing Houses in the East, who recently allowed him to examine their books, besides explaining many original plans for economizing labor, which adopted as in some instances after the experience of half a century, may be justly designated the *ne plus ultra* of the art.

These advantages, grafted upon Mr. SALOM'S long practical experience in a variety of Counting Houses, have enabled him to elaborate a novel and valuable series of transactions, introducing all the great heads and ramifications of mercantile routine to be actually developed by the student. WE offer for sale, on account of ill health of the owner, one of the best and most profitable business stands in the beautiful and thriving city of Monroe, Wisconsin. The stores are in the immediate neighborhood of the railroad depot; one containing a full and general assortment of all kinds of Groceries, Provisions, Boots and Shoes, Fancy Articles, etc., and the other, a general assortment of Wines and Liquors.

Since the business has been established it has enjoyed a very liberal patronage, and has, at present, more than five hundred steady well paying customers.

As the whole will be sold at a very reasonable price, and on easy conditions, any one who wants to engage in business can make no better investment than the above.

Also in the same place 30 valuable building lots, all in the vicinity of the railroad depot.

Also a farm of 40 acres, all improved, two miles south of the city of Monroe, at $25 an acre. We have also for sale, or to exchange for dry goods, ready-made clothing, boots, shoes, etc., four beautiful and valuable building lots in the fast go-ahead city of Beaver Dam—one of the best inland business places in the State. Also one lot 165 by 52, on front street, with a new frame house 25 by 18, cellar, cistern, stable, etc. The house will rent for $100 a year. Improved and unimproved farms of every description, and in all parts of the State; building lots in every Ward in the City of Milwaukee.

As we received advices from our Agent in Germany of numerous emigrants arriving this spring, land owners will find it to their advantage to give us their list of lands for sale, as early as possible. We are now ready to locate lands in any County of the State, to the best advantage.

All business connected with the General Land and Real Estate Agency will be attended to, confidentially and faithfully.

PINNEY YOUNGS' PATENT SAWING MACHINES.
PATENTED JANUARY 30, 1855.—REISSUED OCT. 2, 1855.

THIS IS TO CERTIFY, That we purchased the first Siding Mill built by Pinney Youngs, of Milwaukee, and that we have run the same Machine at our Mills at Bay de Noque, (Mich.) the past two years, and that it has exceeded our expectations. We have no hesitation in saying that it will cut Two Thousand Feet, superficial measure, per hour, and upon a trial of twelve hours we cut 32,184 feet, superficial measure, of Flooring and Siding.
N. LUDINGTON & CO.

Milwaukee, Sept. 18th, 1856.
This is to Certify, That we have used one of Pinney Youngs' Patent Sawing Machines, or Siding Mills, for about one year, and find it the most perfect Machine we have ever seen. It is easily kept in order. We have expended but a shillings for repairs on it as yet.
We have never seen any Machine of the kind that will in any way compare with this. It will cut nearly or quite double the amount of Lumber in the same time of any other mill we have ever examined.
The man that runs it has offered to bet one thousand dollars he could saw in this Siding Mill Fifty Thousand Feet of Lumber within twenty-four hours—The Lumber sawed in this mill is of universally even thickness, which is not the case with any other we have seen.
We really would not exchange our Machine for any other ten machines of any other Patent we ever saw, for our own use.
BRAND & CO.
Algoma, August 29th, 1856.
Oneston, August 16th, 1856
Messrs. PINNEY YOUNGS & Co.:
Gents—We have in use, in our mill at Pensaukie, Green Bay, two of your Siding Machines, and find them to answer our expectations in all respects. We prefer them to any we have ever used, or of which we have any knowledge. From the report of our Superintendent, we learn that one of your Machines cut during the week ending July 19th, 155,558 feet of Lumber—mostly fencing and flooring—being about 26,000 feet every twenty-four hours. For rapidity and smoothness of sawing, as well as durability of construction, we think it cannot be equalled by any other Machine now in use.
Yours, truly,
F. B. GARDNER & CO

INSTRUCTION.

ENGLISH AND MERCANTILE ACADEMY,

No. 40 Wisconsin Street, Milwaukee, Wisconsin.

THE PRINCIPAL RESPECTFULLY informs the Public that the Winter Term of this School commences, Monday, December 8th, 1856.

This Institution has been in successful operation for seven years. The Academic year comprises 4 terms of 11 weeks each, the first commencing on the 2d Monday of September.

The whole number of Students in attendance at present is 69.

PRIMARY DEPARTMENT.

A competent Female has charge of this department, and children are received at any age.

THE LADIES' DEPARTMENT IN A SEPARATE ROOM,

is under the superintendance of Miss W. A. HALL. Young Ladies recite in Prof. L.'s classes in English Grammar, Rhetoric, Composition, &c., and are taught a neat and fashionable style of Writing. Instruction is given in Embroidery, Drawing, Music, Latin and German, and scholars are taught to read, write and converse in French daily.

C. F. L. takes pleasure in announcing to his friends and patrons the prosperity of this department during the past year. He pledges himself that it will be his constant aim to secure the greatest amount of intellectual and moral improvement, to those entrusted to his care.

COMMERCIAL DEPARTMENT.

This department is under the immediate charge of Prof. Larigo. Instruction is given in all the branches of a thorough English and Commercial Education, including the Higher Mathematics, French, Latin and German Languages, and is designed to prepare youth for college or for business. Perfect facilities are afforded to young gentlemen acquiring, in the most expeditious manner, a thorough knowledge of Commercial Science as practically employed in the Counting Rooms and Business pursuits generally.

The Full course embraces the most approved and practical forms for keeping Books by Double Entry, in the various departments of Trade and Commerce, including general Wholesale and Retail, Mercantile Exchange, Commission, Shipping, Individual Partnership and Compound, Company Business with Commercial Correspondence in English, French and German. The Student is taught to copy all manuscripts in a bold and rapid hand, which serves as a great auxiliary to him in securing an excellent style of writing—a hand writing in every respect adapted to business pursuits is also warranted to every student who takes a full course with a Diploma.

Through the extensive business acquaintance of the Principal, many of his students obtain profitable situations.

Lady's and Gentlemen's French Class at 4½ P. M.—Latin Class at 7½ A. M.; German Class at 8 P. M.; Evening Classes in Book-Keeping, Writing, &c., from 7 to 10.

☞ Students admitted any time, day or evening.—For further information see Circulars.

dec4-d184-d1y C. F. LARIGO, Principal.

LESSONS IN Foreign Languages.

MR. AND MRS. L. S. DE CRETY, from Paris, for four years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish Languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their house being arranged with that view.

Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation, Mr. De Crety furnishing books of the best French authors. Those too wishing to learn vocal music in either of those languages, will find a competent music teacher in the establishment.

The hours of instruction will be from 8 to 11 o'clock A. M., and from 2 to 5 P. M. And in the evening from half past 6 to 8, for conversation.

Mr. De Crety will also give lessons in French, Spanish and Italian, at his office, to gentlemen only, from 7 to 10 o'clock in the evening, as also lessons in Fencing, the use of the Sword, and all military exercises. Persons of delicate constitution and feeble temperament, as also those confined to their offices and engaged in sedentary pursuits, will derive from these exercises, improvement in their health, acquire strength in their limbs and find an agreeable recreation.

Mr. De Crety will also form similar classes for children, from 10 to 15 years old, at his house, or office, as parents may prefer. Fathers and mothers who desire to see their children strong, active and robust, can judge for themselves, after a few weeks trial, as to the effect of these different exercises upon their health.

The continued patronage of the public is respectfully solicited.

To Merchants.—Mr. De Crety will take charge of French correspondence to all the principal cities of France and will procure all Price Currents that they may want. aug27d878d1y

BAYLIES & LINCOLN'S Milwaukee Commercial College

212 and 214 East Water St., MILWAUKEE, - - WISCONSIN.

THE proprietors of the Milwaukee Commercial College would respectfully announce that the liberal patronage that has been extended to this deservedly popular enterprise has led them to extend the field of study, so that it will embrace every branch of a thorough Commercial Education. As there are no classes formed in any department of study—(thereby enabling the student to enter any time, each one receiving separate instructions)—the student, on entering, is placed in the Counting Room, with actual transactions to work from, thus making the pupil's theory harmonize with practice from the first to the last degree. The Commercial Course comprises Book Keeping by Double Entry; in its various forms, as adapted to Wholesale, Retail, Commission, Manufacturing, Custom House, Banking, Railroading, in stock partnership, and compound Company business, Commercial Calculations in per centage, Exchange, Bank and Compound Equations, Averaging, Accounts by Simple and Compound Discount, &c., according to the most approved methods. Commercial Correspondence, including account sales, account currents, drafts, bills of exchange, &c., &c.

Also, a perfect system of detecting Counterfeit Bank Notes, will be given to each student.

A good Hand Writing guaranteed to every person completing a full course.

During the Seasons, Lectures on Commercial Law will be delivered by eminent legal and business men, and no pains will be spared to make this department particularly attractive.

The Reading Room will be supplied with the various Daily and other papers and publications.

Particular attention will be given to Ladies who may wish to acquire a business education, and separate rooms have been beautifully fitted up for their use.

Merchants and other business men are informed that at any time, by a few days' notice, they can be supplied with competent Accountants, and young men will be assisted in procuring situations when desired.

MISCELLANEOUS.

Every Man his own Miller. PORTABLE CAST IRON GRAIN MILL. Young America Improved and Perfected.

THE above mill was patented by Charles Leavett, of Ill., Feb. 27th, 1855. This mill took the first premium at the Ohio State Fair, 1855, over all other mills, and during the fairs of the fall of 1856, the first premiums over many others in the State Fairs of Ohio, New York, Tennessee, Michigan and Minnesota, also, at the County Fairs of the following Counties of Ohio and Indiana, viz: Guernsey, Crawford, Logan, Medina, Ashland, Wayne, Knox, Montgomery Clark, Erie, Lorain, Richland, Plymouth district, Chester, Frederick. In Indiana, Tippecanoe, Jefferson, Wayne, Fayette, Shelby, Jennings, Warren and Fountain.

Farmers, Saw Mill owners, Livery Stable men and all others feeding stock of any kind are invited to examine the merits and superior advantages of the above mill.

The Young America will grind as much corn in the cob, shelled corn, oats, barley, and all other grains for stock as any mill of the same size and with much less draft.

What we claim is great strength, durability and simplicity, being so simple that a child can learn to grind with safety.

In the next we claim the small expense to renew the grinding parts of the mill, and the ease with which the grinders are put on the mill, at a cost of not over three dollars, which makes it superior and more economical than any other mill. The grinding parts of the above mill are made of the hardest of cast iron, as hard in fact as cast steel can be tempered. Each set will grind from 5,000 to 10,000 bushels of grain, with proper usage. Besides the set of grinders on the mill, an extra set will be sent with each mill sold, making it equal to two common mills. When found necessary to change the grinders, almost any one can do it in twenty minutes.

As a proof of the estimation in which the Young America is held in Ohio, we would state that during the fall, winter and spring of 1855-56, 2500 were made and sold in Ohio, at Zanesville, by Douglas, Smith & Co., Hall & Allen of Mansfield, Eldridge & Faucener of Cincinnati, and at New Philadelphia.

At this time there is not less than 3000 being sold every week in Ohio, at retail, besides those sold in other States east and west.

The above mill is being manufactured and can be furnished at wholesale and retail, from the Wisconsin Iron Works of A. J. Langworthy, on the water power in the City of Milwaukee. The mill is warranted perfect in all respects.

Dealers in agricultural implements and machines, of the State of Wisconsin, are requested to call and make arrangements for the sale of the above mills, to whom a liberal discount will be made on the retail price; also any others wishing to engage in a profitable business. Would call attention to good men who have teams, in any part of the State, who would peddle the mills through the country. Four can be taken on a wagon at a time—liberal arrangements would be made with them.

The above mill will grind from 5 to 20 bushels of grain per hour, in accordance with the kind and condition of the grain.

Price of the Young America $55—ready to hitch to and warranted to grind as fast as any mill of the same size when properly worked, and with less draft.

For further information address or see the undersigned, sole owner of the right to the State of Wisconsin.

For sale by W. HARROLD SMITH, Wisconsin Iron Works.

BOERHAVE'S HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR DYSPEPSIA, DISEASE OF THE KIDNEYS, LIVER COMPLAINT, WEAKNESS OF ANY KIND FEVER AND AGUE,

And the various affections consequent upon a disordered STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in many instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on their strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Whoever expects to find in this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.

CAUTION!

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given BOERHAVE'S HOLLAND BITTERS a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

MEDICAL.

R. R. R.

THE MEDICAL TRINITY.

EACH of Radway's Three Remedies possesses special curative power over certain diseases; and when either the Ready Relief, Renovating Resolvent, or the Regulators, are used for the certain class of diseases they are specially designed for, the system undergoes a rapid transformation from its diseased condition to a healthy and happy state of existence.

RADWAY'S READY RELIEF.

This remedy is to be used externally, or taken internally, for all pains, aches and infirmities. In a few minutes it stops the most torturing pains, subdues all inflammations and cures the worst cases of Rheumatism, Lumbago, Gout, Paralysis, Neuralgia, Tooth-ache, Burns, Sprains, Strains, &c. It restores the lame, infirm and crippled to soundness and vigor. It is likewise a certain cure and preventative for Fever and Ague, Scarlet Fever, Smallpox, Croup, Hoarseness, Colds and Influenza. Whenever you feel any unpleasant or painful symptoms, take a dose of Radway's Ready Relief, or apply it to the parts where the pain is located; in a short time you will enjoy ease and comfort.

Bear in mind, there is no pain so severe but that Radway's Ready Relief will stop, and no system so crippled with infirmities but that the R. R. R. Remedies will restore to sound and vigorous health.

RADWAY'S REGULATORS.

The discovery of these wonderful pills establishes a new era in purgatives, and a new principle in the science of medicine. In taking these pills no griping pains or sickness at stomach is experienced; they operate naturally, leaving the bowels, liver and other organs in a natural condition.

They insure those who take them a good appetite and a healthy digestion.

Each pill that is taken gives new life to the blood; they purify it, take from it all impure deposits and equalize its circulation.

One or two doses of Radway's Regulators will entirely remove all distressing symptoms of Dyspepsia, Jaundice, Nervousness, Indigestion, Costiveness, Liver Complaint, Billiousness, Melancholy, and will cure all organic diseases, either in man or woman. Ladies troubled with irregularities or weakening discharges, may rely upon a prompt cure and regular periods if Radway's Regulators are taken.

PICTURE OF HEALTH AND BEAUTY.

A few doses of Radway's Regulators will insure a clear, fair, pure and healthy skin and a rosy complexion. They give to those troubled with weak dull, yellow eyes, a clear and brilliant appearance. Radway's pills give a natural beauty to the face, eyes and head; and the use of the Ready Relief as a wash for the teeth and an aromatic for the breath, will change the most disgusting foul breath to sweetness, and the blackest teeth to Parian whiteness.

One to ten of Radway's Regulators is a dose; they never do injury, but always do good.

CONGESTIVE DISEASES, APOPLEXY, TERMINATION OF BLOOD TO THE HEAD.

Persons of full blooded plethoric habits are more subject to congestive diseases, headaches, rush of blood to the head, than those of a lean habit; bleeding in these cases is highly detrimental, nor does this practice lessen the danger; the difficulty is not caused by too much blood, but by its disturbed circulation, and the irregular action of the heart. Now a dose of Radway's Regulators will correct all these difficulties—they will correct the action of the heart, liver, and all other organs to a natural and regular action, and will immediately equalize the circulation of the blood. More purging in these cases will only aggravate the disease.

Radway's Regulators not only regulate the bowels, by which all diseased and injurious matter is purged from the body, but they control the whole system, and, hence, each and every organ, the heart, brain, liver, nerves, bowels, skin, pancreas, bladder, kidneys, stomach, lungs, throat, blood, and every tissue in the whole organization, to a healthy and regular action. They infuse new life throughout the whole system; their action is not confined to any local part of the stomach, like common pills, but they search out diseased action wherever it may be hidden, and expel all diseased humors and deposits from the body. In a few hours after taking a dose of these life creating pills you feel refreshed and invigorated from head to foot. We have known the dispirited and melancholy take a dose of Radway's Regulators just to feel good—they make one feel so happy.

RADWAY'S RENOVATING RESOLVENT.

Cures Humors, Salt Rheum, Scrofula, Ulcers, Nodes, Tumors, Fever Sores, Skin Eruptions, Blotches, Bronchitis, Dyspepsia, Gout, Dropsy, Syphilis Consumption, Apoplexy, &c.; and all constitutional and chronic diseases, either inherited by hereditary transmission, or inoculated by exposure or otherwise.

There is no remedy in the world that will work such miraculous cures in old diseases as Radway's Resolvent, it changes the whole human body—reproduces new and healthy blood.

☞ Bleeding from the lungs—Radway's Renovating Resolvent will, in a few minutes, check Hemorrhage from the lungs or throat. In cases where the patient coughs up clots of blood or pus streaked with blood Radway's Resolvent will soon remove the difficulty.

☞ Sarah Hammond, of 193 East Thirty-Second st., had a bad cough for two years, she coughed up sometimes half a pint of blood during the night. She was cured in seven days by the Relief and Resolvent.

☞ A sore leg of 21 years cured in three weeks, by Radway's Relief. Mr. T. H. Kiggs, a merchant of high standing in Dahlonega, Ga., says:—"That a gentleman who, for 21 years, had been afflicted with a sore leg, that resisted every kind of treatment, was effectually cured in three weeks by Radway's Ready Relief, Resolvent and Regulators."

GENERAL COMPLAINTS.

If you catch a sudden cold, get a sore throat, or become afflicted with influenza, a dose of Radway's Regulators, and an application of the Ready Relief, will free you from all pain and uneasiness. In a few minutes after the Relief is applied no soreness will trouble you. If afflicted with headache, either nervous or from foul stomach, Radway's Ready Relief, and a dose of Regulators, will remove all pain from the head, and restore health to the nervous and afflicted.

Radway's Ready Relief and Regulators always cures Dyspepsia in its most distressing forms, and nervousness with all its horrors.

☞ WHOOPING COUGH.—Thousands of cases of Whooping Cough have been cured in a few days by the Resolvent and Relief, and if the Whooping Cough is prevalent in the neighborhood, those who take half a teaspoonful of Ready Relief in a little water, once or twice per day, will never catch it. Radway's Relief destroys the infection of the "Whooping Cough."

☞ TOBACCO CHEWERS.—Those who have become reduced by the effects of tobacco, or the indulgence in spirituous liquors, who feel the horrors of incapacity, weakness, sterility, and the infirmities which a fast and intemperate, luxurious and lustful course of life inflicts upon its victims, will find relief from these horrors, and new restoration to health, strength and vigor, by the use of Radway's Relief, Regulators and Resolvent.

MISCELLANEOUS.

HEALTHY BREAD! MADE WITH JAS. PYLE'S DIETETIC SALERATUS.

THIS article is deprived of the caustic impurities, so well known to exist in all common Saleratus, thereby dealing destruction to thousands no aware of its injurious qualities. So destructive is it to the constitution of children, that where they and the parents have been regular consumers of Saleratus Bread, there is but little chance for recovery from infantile or contagious diseases. In this way thousands meet with premature Death—the sad reality of which is forcibly demonstrated, in the mortality among children, in the New England and other States, where warm bread and cake is so generally consumed.

JAS. PYLE'S DIETETIC SALERATUS

Is of vast importance to the public, and is rapidly coming into use. Being deprived of all caustic impurities, it is quite as harmless as flour. In point of economy it excels, having powerful raising properties, and is altogether superior to Baking Soda. No intelligent lady will dispute this after trying it.

It is packed in pound packages, each bearing the name of James Pyle, without which it is not genuine. For sale by John Furlong & Co., C. A.
